RE: Measuring the effect of Hyaluronic acid (HA) on tendon healing after arthroscopic rotator cuff repair

Dear Executive Officer,

Thank you for reviewing the attached application seeking ethical approval for a Phase III clinical trial titled **Measuring the effect of Hyaluronic acid (HA) on tendon healing after arthroscopic rotator cuff repair**.

Approval is being sought for the following sites in NSW:

St. Vincent's Private Hospital, Sydney
Nepean Private Hospital
East Sydney Private Hospital

Documents detailing the research are enclosed and include:

Study Protocol (version 1)
1st to 4th Checkpoint Questionnaires (version 1)
Patient Information Sheet (version 1)
Master Consent Form (version 1)

If you have any questions, please contact our coordinating investigator, **Dr Ilian Eusebio** at 02 8382 6969 or ilian.ortho@gmail.com

Yours sincerely,

A/Prof Simon D. Tan
